GLOBAL TRANSPORTATION & LOGISTICS

Overview through FQ4 June 30, 2021

FORWARD-LOOKING STATEMENT

This presentation and discussion includes forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and Section 27A of the Securities Act of 1933, as amended, and such statements are subject to the safe harbor created by those sections and the Private Securities Litigation Reform Act of 1995, as amended. All statements, other than statements of historical fact, including without limitation statements regarding the financial position, strategic plan and other plans, projections, future industry characteristics, growth expectations, future ability to identify, consummate, and integrate acquisitions, and objectives for our future operations, are forward-looking statements. Such statements may be identified by their use of terms or phrases such as “may,” “could,” “expects,” “estimates,” “projects,” “believes,” “anticipates,” “plans,” “intends,” and similar terms and phrases. Forward-looking statements are based upon the current beliefs and expectations of our management and are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified, which could cause future events and actual results to differ materially from those set forth in, contemplated by, or underlying the forward-looking statements. Although we believe that such forward-looking statements are based on reasonable assumptions, we give no assurance that our expectations will in fact occur. For examples of risks, uncertainties, and events that may cause our actual results to differ materially from the expectations we describe in our forward-looking statements, see “Risk Factors” in the prospectus to which this offering relates and the documents incorporated by reference therein. Existing and prospective investors are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date hereof. We undertake no obligation to publicly update or revise any forward-looking statements after the date they are made, whether as a result of new information, future events or otherwise, except for the extent required by applicable securities laws.

NON-GAAP FINANCIAL DATA

This presentation may include the use of net revenues, EBITDA, adjusted EBITDA, adjusted net income, and adjusted net income per share, which are financial measures that are not in accordance with generally accepted accounting principles (“GAAP”). Each such measure is a supplemental non-GAAP financial measure that is used by management and external users of our financial statements, such as industry analysts, investors and lenders. While management believes such measures are useful for investors, they should not be used as a replacement for financial measures that are in accordance with GAAP.

We define net revenues as revenues less directly related operations and expenses attributed to the company’s services. We define EBITDA to exclude the effects of preferred stock dividends, interest and taxes, and excludes the “non-cash” effects of depreciation and amortization on long-term assets. Companies have some discretion as to which elements of depreciation and amortization are excluded in the EBITDA calculation. We exclude all depreciation charges related to furniture and equipment, all amortization charges, including amortization of leasehold improvements and other intangible assets. We define adjusted EBITDA to exclude changes in contingent consideration, expenses specifically attributable to acquisitions, severance and lease termination costs, F/X gains and losses, extraordinary items, share-based compensation expense, non-recurring litigation expenses, and other non-cash charges. For adjusted net income and adjusted net income per share, management uses a 24.5% tax rate commencing with FY2019 and a 31% tax rate for prior periods for calculating the provision for income taxes before preferred dividend requirement to normalize the Company's tax rate to that of its competitors and to compare the Company's reporting periods with difference effective tax rates. In addition, in arriving at adjusted net income, the Company adjusts for significant items that are not part of regular operating activities. These adjustments include acquisition costs, transition, severance and lease termination costs, non-recurring litigation expenses as well as depreciation and amortization and certain other non-cash charges.

Our presentation of net revenues, EBITDA, adjusted EBITDA, adjusted net income, and adjusted net income per share should not be construed as an inference that our results will be unaffected by unusual or non-recurring items. Our computations of net revenue, EBITDA, adjusted EBITDA, adjusted net income, and adjusted net income per share may not be comparable to other similarly titled measures of other companies.

Reconciliations of our non-GAAP financial measures presented to our GAAP-based financial measures are included on the last slide of this presentation.

Leading Multi-Modal 3PL Service Provider

Radiant is a leading non-asset based provider of domestic and int'l transportation and logistics solutions.

- Radiant provides global supply chain services, including domestic and international air and ocean freight forwarding and truckload, less-than-truckload, and intermodal freight brokerage services
 - Strong network of company-owned locations and strategic operating partners (agents) in the United States and Canada as well as additional global partners to facilitate international shipments
- Radiant continues to build out a compelling multi-modal offering, leveraging its technology and bundling value-added logistics solutions with its core transportation service offerings
 - The Company continues to optimize its best-in-class operating platform (people, processes, and technology) in order to provide exceptional operational and back-office infrastructure to its network participants
- The Company has generated impressive financial results, with revenues of \$889.1 million, net revenues of \$220.8 million and adjusted EBITDA of \$48.8 million for the trailing twelve months ended Jun. 30, 2021.

First to Market Advantage

Structural changes within the freight forwarding community, resulting from industry deregulation in the 1970s and the natural “graying” of industry pioneers, provide an opportunity to support the logistics entrepreneur in transition.

- Radiant enjoys a 10+year first to market advantage in leveraging a multi-brand strategy to consolidate the agent based forwarding community
- Uniquely positioned to bring value to the logistics entrepreneur
 - Leveraging our status as a public company to provide network participants with a framework to share in the value that they help create
 - Solid platform in terms of network, people, process and technology to “scale” the business
 - Ideal long-term partner in terms of succession planning and liquidity
- Systematically, we plan to convert key agent-based offices to company-owned offices and strategically acquire and integrate other additional non-asset based operations
- Radiant has identified and is in varying stages of due diligence with a number of potential acquisitions

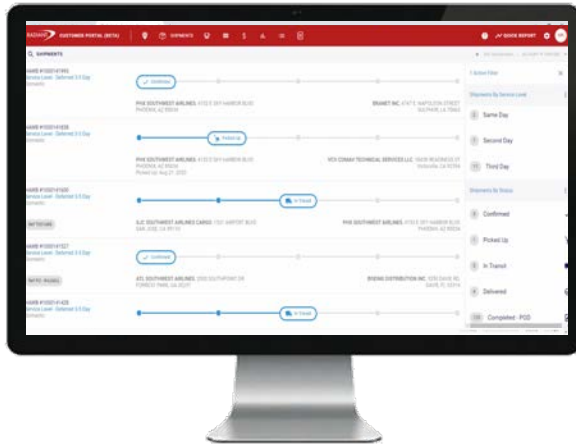

A Robust Technology Platform

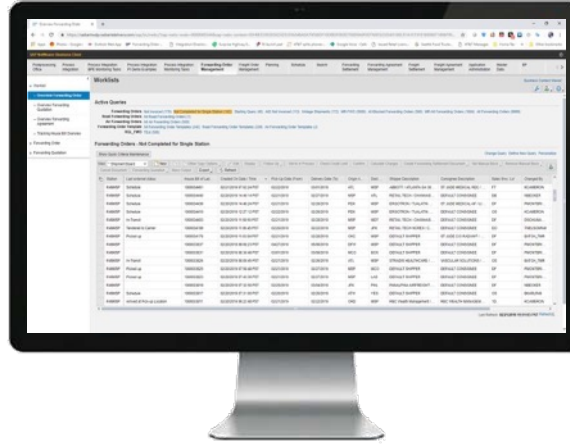

Radiant enjoys a robust, scalable technology platform to support its future growth.

CUSTOMER PORTAL

- Direct integration with SAP TM
- Visual tracker providing status of shipments
- Highly versatile dashboard allows user to quickly search and filter data to see records for pertinent activities
- Radiant-developed, with a continuous feature set as business expands

AGENT PORTAL

- Robust platform supporting all key modes
- Separate, integrated modules for booking, routing, settlement
- User configurable screens and worklists
- Extensive data elements for analytics and customer reporting

SAP TM ROLL-OUT

- Radiant maintains a highly-customizable, enterprise IT platform to support its multi-brand strategy
- The Company has chosen SAP TM as its platform going forward and is effectively and methodically deploying the system across its network
- The Company's IT team developed a "middleware" solution that allows any TMS to quickly integrate into Radiant's financial system
 - Acts as a transmission between any other TMS and SAP ECC and allows agent stations and company-owned locations to use legacy systems concurrently with the new system as they transition, facilitating a seamless integration

Radiant is one of the first 3PLs in North America to deploy SAP TM, a competitive advantage in targeting the installed customer base of shippers operating on SAP.

To meet our current and future growth, Radiant's production environments are deployed in AMAZON WEB SERVICES (AWS). AWS is a premier hyperscaler providing stable and scalable global infrastructure with the capabilities to expand our footprint.

A Talented and Experienced Management Team

Radiant is led by a deep management team with extensive industry experience, a long track record of success and is aligned with shareholders. The Founder/CEO continues to own ~20% of the shares outstanding.

Diversified Customer Base

Radiant provides customized time critical domestic and international transportation and logistics solutions to a diversified customer base of manufacturers, distributors and retailers.

HIGHLY DIVERSIFIED CUSTOMER BASE ⁽¹⁾

- Over 12,000 individual customers
- No single agency station accounts for more than 6.5% of net revenues
- Top 5 agency stations account for less than 20.5% of net revenues
- Top 10 customers account for less than 18.5% of net revenues
- No single customer accounts for more than 3.5% of net revenues

UNIQUE MULTI-BRAND STRATEGY

- Radiant has maintained the brands from its agent network acquisitions including AIRGROUP (2006), ADCOM (2008), Distribution by Air (2011), and SBA (2015)
- Provides multiple on-ramps for agents to join the network while centralizing back-office operations and creating a pipeline of attractive tuck-in acquisitions
- Company-owned locations operate as Radiant Global Logistics, including agency locations as they convert to company-owned stores

SCALABLE INFRASTRUCTURE

- Scalable platform with infrastructure and team in place to support a much larger organization
- Track record of on-boarding acquisitions and capturing significant synergies through absorption of back-office functions

BEST-IN-CLASS TECHNOLOGY

- Have utilized SAP ERP since inception, providing robust analytics and functionality
- One of the first 3PLs in North America to implement SAP TM, providing seamless integration with the vast universe of shippers operating on SAP

BUILT-IN ACQUISITION PIPELINE

- Opportunity to continue to selectively convert agent stations to company-owned operations
- Limited integration risk as agent stations are already operating as part of the network
- Incremental cost synergies available at the station level

Multiple Opportunities for Future Growth

SCALABLE PLATFORM

World-class IT system, corporate infrastructure, and multi-brand strategy provide ability to efficiently add new agents to the network, grow existing locations and agents organically, and realize significant back-office synergies from acquisitions
