CEO Bohn Crain comments on results

"We are very pleased to report another quarter of solid financial results as we continue to navigate the challenges presented by the COVID-19 pandemic," said Bohn Crain, Founder and CEO of Radiant Logistics. "We reported revenues of \$175.9 million and net revenues of \$46.0 million for the quarter ended September 30, 2020, which were down on a comparable prior year basis largely as a result of the impacts of the COVID-19 pandemic. Fortunately, however, through a number of cost-saving and other strategic initiatives we were able to manage our operating costs to mitigate this negative financial impact and keep our bottom line largely intact. Also, over the same period, we generated \$13.4 million in cash from operations finishing the quarter with net debt of only \$10.4 million. The pandemic, as unfortunate as it is, has reinforced the benefits of our non-asset based variable cost model, diverse service offerings and low debt levels."

Crain continued, "Although the overall demand for transportation services has been significantly impacted, we are seeing slow and steady improvement across many industry verticals that we serve along with a broad-based tightening of capacity heading into peak season. With the diversity of our customers and service offerings, the strength of our balance sheet, the scalability of our technology and our extensive carrier-partner network, we are certainly optimistic about the economy, its ultimate recovery and the opportunities that it will present for Radiant. In the months ahead, we will continue to closely monitor how we and the economy are progressing and look forward to re-engaging in acquisition opportunities and/or our stock buy-back activities as the opportunities present themselves."

Reconciliation of Non-GAAP Measures RADIANT LOGISTICS, INC.

Reconciliation of Total Revenues to Net Revenues, Net Income to Adjusted Net Income, EBITDA, Adjusted EBITDA, and Adjusted EBITDA Margin (unaudited)

As used in this report, Net Revenues, Adjusted Net Income, EBITDA, Adjusted EBITDA, and Adjusted EBITDA Margin are not measures of financial performance or liquidity under United States Generally Accepted Accounting Principles ("GAAP"). Net Revenues, Adjusted Net Income, EBITDA, Adjusted EBITDA, and Adjusted EBITDA Margin are presented herein because they are important metrics used by management to evaluate and understand the performance of the ongoing operations of Radiant's business. For Adjusted Net Income, management uses a 24.5% tax rate to calculate the provision for income taxes to normalize Radiant's tax rate to that of its competitors and to compare Radiant's reporting periods with different effective tax rates. In addition, in arriving at Adjusted Net Income, the Company adjusts for certain non-cash charges and significant items that are not part of regular operating activities. These adjustments include income taxes, depreciation and amortization, change in fair value of contingent consideration, transition costs, lease termination costs, acquisition related costs, litigation costs, amortization of debt issuance costs, and issuance costs for preferred stock redemption.

We commonly refer to the term "net revenues" when commenting about our Company and the results of operations. Net revenues are a Non-GAAP measure calculated as revenues less directly related operations and expenses attributed to the Company's services. We believe net revenues are a better measurement than are total revenues when analyzing and discussing the effectiveness of our business and is used as a portion of a key metric the Company uses to discuss its progress.

EBITDA is a non-GAAP measure of income and does not include the effects of preferred stock dividends, redemption of preferred stock, interest and taxes, and excludes the "non-cash" effects of depreciation and amortization on long-term assets. Companies have some discretion as to which elements of depreciation and amortization are excluded in the EBITDA calculation. We exclude all depreciation charges related to technology and equipment, and all amortization charges (including amortization of leasehold improvements). We then further adjust EBITDA to exclude changes in fair value of contingent consideration, expenses specifically attributable to acquisitions, transition and lease termination costs, foreign currency transaction gains and losses, extraordinary items, share-based compensation expense, litigation expenses unrelated to our core operations, MM&D start-up costs and other non-cash charges. While management considers EBITDA, and adjusted EBITDA useful in analyzing our results, it is not intended to replace any presentation included in our consolidated financial statements.

We believe that these non-GAAP financial measures, as presented, represent a useful method of assessing the performance of our operating activities, as they reflect our earnings trends without the impact of certain non-cash charges and other non-recurring charges. These non-GAAP financial measures are intended to supplement the GAAP financial information by providing additional insight regarding results of operations to allow a comparison to other companies, many of whom use similar non-GAAP financial measures to supplement their GAAP results. However, these non-GAAP financial measures will not be defined in the same manner by all companies and may not be comparable to other companies. Net Revenues, Adjusted Net Income, EBITDA, Adjusted EBITDA, and Adjusted EBITDA Margin should not be considered in isolation or as a substitute for any of the consolidated statements of operations prepared in accordance with GAAP, or as an indication of Radiant's operating performance or liquidity.
