FORWARD-LOOKING STATEMENT

This presentation and discussion include forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended and Section 27A of the Securities Act of 1933, as amended and such statements are subject to the safe harbor created by those sections and the Private Securities Litigation Reform Act of 1995, as amended. All statements, other than statements of historical fact, including without limitation statements regarding the financial position, strategic plan and other plans, projections, future industry characteristics, growth expectations, future ability to identify, consummate, and integrate acquisitions, and objectives for our future operations, are forward-looking statements. Such statements may be identified by their use of terms or phrases such as “may,” “could,” “expects,” “estimates,” “projects,” “believes,” “anticipates,” “plans,” “intends,” and similar terms and phrases. Forward-looking statements are based upon the current beliefs and expectations of our management and are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified, which could cause future events and actual results to differ materially from those set forth in, contemplated by, or underlying the forward-looking statements. Although we believe that such forward-looking statements are based on reasonable assumptions, we give no assurance that our expectations will in fact occur. For examples of risks, uncertainties, and events that may cause our actual results to differ materially from the expectations we describe in our forward-looking statements, see “Risk Factors” in the Company’s most recent annual report. Existing and prospective investors are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date hereof. We undertake no obligation to publicly update or revise any forward-looking statements after the date they are made, whether as a result of new information, future events or otherwise, except for the extent required by applicable securities laws.

NON-GAAP FINANCIAL DATA

This presentation may include the use of adjusted gross profit, EBITDA and adjusted EBITDA, which are financial measures that are not in accordance with generally accepted accounting principles (“GAAP”). Each such measure is a supplemental non-GAAP financial measure that is used by management and external users of our financial statements, such as industry analysts, investors and lenders. While management believes such measures are useful for investors, they should not be used as a replacement for financial measures that are in accordance with GAAP.

We define adjusted gross profit as revenues less directly related operations and expenses attributed to the company’s services. We define EBITDA to exclude the effects of interest, taxes and the “non-cash” effects of depreciation and amortization on long-term assets. Companies have some discretion as to which elements of depreciation and amortization are excluded in the EBITDA calculation. We exclude all depreciation charges related to property, technology and equipment and all amortization charges (including amortization of leasehold improvements and other intangible assets). We define adjusted EBITDA to exclude share-based compensation expense, changes in fair value of contingent consideration, expenses specifically attributable to acquisitions, ransomware incident related costs, changes in fair value of interest rate swap contracts, restatement costs, transition and lease termination costs, foreign currency translation gains and losses, extraordinary items, litigation expenses unrelated to our core operations and other non-cash charges.

Our presentation of adjusted gross profit, EBITDA and adjusted EBITDA should not be construed as an inference that our results will be unaffected by unusual or non-recurring items. Our computations of adjusted gross profit, EBITDA and adjusted EBITDA may not be comparable to other similarly titled measures of other companies.

Reconciliations of our non-GAAP financial measures presented to our GAAP-based financial measures are included on the last slide of this presentation.

Leading Multi-Modal 3PL Service Provider

Radiant is a leading non-asset based provider of domestic and int'l transportation and logistics solutions.

- Radiant provides global supply chain services, including domestic and international air and ocean freight forwarding and truckload, less-than-truckload, and intermodal freight brokerage services
 - Strong network of company-owned locations and strategic operating partners (agents) in the United States and Canada as well as additional global partners to facilitate international shipments
- Radiant continues to build out a compelling multi-modal offering, leveraging its technology and bundling value-added logistics solutions with its core transportation service offerings
 - The Company continues to optimize its best-in-class operating platform (people, processes, and technology) in order to provide exceptional operational and back-office infrastructure to its network participants
- The Company has generated impressive financial results, with revenues of \$888.3 million, adjusted gross profit of \$256.2 million and adjusted EBITDA of \$37.6 million for the trailing twelve months ended December 31, 2023.

A PROVEN GROWTH PLATFORM

Since its inception in 2006, Radiant has continued to deliver profitable growth with a track record of executing and integrating acquisitions.

A Track Record of Profitable Growth

Radiant has consistently generated solid financial results and is well positioned for future growth.

- For the Trailing Twelve Months Ended December 31, 2023, Radiant generated \$256.2 million in adjusted gross profit and \$37.6 million in adjusted EBITDA
- A track record of seamlessly integrating company-owned locations and realizing meaningful post-acquisition synergies, combined with an active M&A pipeline, creates compelling levers to further accelerate growth
- Radiant's adjusted EBITDA margin (i.e. adjusted EBITDA as a percentage of adjusted gross profit) is 14.7% for the Trailing Twelve Months Ended December 31, 2023

First to Market Advantage

Structural changes within the freight forwarding community, resulting from industry deregulation in the 1970s and the natural “graying” of industry pioneers, provide an opportunity to support the logistics entrepreneur in transition.

- Radiant enjoys a 15+year first to market advantage in leveraging a multi-brand strategy to consolidate the agent based forwarding community
- Uniquely positioned to bring value to the logistics entrepreneur
 - Leveraging our status as a public company to provide network participants with a framework to share in the value that they help create
 - Solid platform in terms of network, people, process and technology to “scale” the business
 - Ideal long-term partner in terms of succession planning and liquidity
- Systematically, we plan to convert key agent-based offices to company-owned offices and strategically acquire and integrate other additional non-asset based operations
- Radiant has identified and is in varying stages of due diligence with a number of potential acquisitions

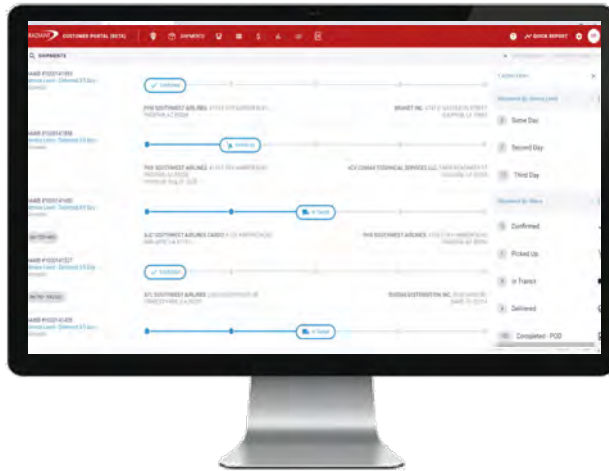

A Robust Technology Platform

Radiant enjoys a robust, scalable technology platform to support its future growth.

CUSTOMER PORTAL

- Direct integration with SAP TM
- Visual tracker providing status of shipments
- Highly versatile dashboard allows user to quickly search and filter data to see records for pertinent activities
- Radiant-developed, with a continuous feature set as business expands

AGENT PORTAL

- Robust platform supporting all key modes
- Separate, integrated modules for booking, routing, settlement
- User configurable screens and worklists
- Extensive data elements for analytics and customer reporting

SAP TM ROLL-OUT

- Radiant maintains a highly-customizable, enterprise IT platform to support its multi-brand strategy
- The Company has chosen SAP TM as its platform going forward and is effectively and methodically deploying the system across its network
- The Company's IT team developed a "middleware" solution that allows any TMS to quickly integrate into Radiant's financial system
 - Acts as a transmission between any other TMS and SAP ECC and allows agent stations and company-owned locations to use legacy systems concurrently with the new system as they transition, facilitating a seamless integration

Radiant is one of the first 3PLs in North America to deploy SAP TM, a competitive advantage in targeting the installed customer base of shippers operating on SAP.

To meet our current and future growth, Radiant's production environments are deployed in AMAZON WEB SERVICES (AWS). AWS is a premier hyperscaler providing stable and scalable global infrastructure with the capabilities to expand our footprint.

A Talented and Experienced Management Team

Radiant is led by a deep management team with extensive industry experience, a long track record of success and is aligned with shareholders. The Founder/CEO continues to own ~20% of the shares outstanding.
